

**Meet your new  
and paperless  
Workplace  
Safety & Health  
solution**

## Welcome to e-COR™

MHCA WORKSAFELY™ is proud to introduce WORKSAFELY e-COR™: the essential tool for structuring, supporting and reinforcing workplace safety & health practices in your workplace.

WORKSAFELY e-COR™ is a digital platform that stores, organizes and submits all of your company's documentation in workplace health and safety - electronically categorized and displayed via the SiteDocs app, available for iPad, iPhone, Android and SiteDocs web-based program.

## Features

With WORKSAFELY e-COR™, you can:

- Provide instant access to training materials, emergency contact information, and instructions for orientation to employees on-site
- Sign and submit documents including Hazard Assessments, Tool Box Talks, and Inspections digitally with customized comments and photo caption options
- Effectively manage employees and their work sites from the office, home, or on-location
- Easily input, monitor and store information in preparation for yearly audits, including safety manuals, practices/procedures and MSDS/WHMIS
- Oversee your employee's participation in your company's safety program
- Review hazards and outstanding inspection items for each project in real time
- Have instant access to the tools and resources needed to becoming COR™ Certified
- Connect with WORKSAFELY™ Safety Advisors for questions, feedback and information regarding your audit, procedures, and the overall COR™ Certification Program

**WORKSAFELY e-COR™ is safe, secure, and the next step in workplace safety and health!**

## How it will benefit your business

### Work Off-Line

Whether you're inputting data in the office or filling out a form on-site, WORKSAFELY e-COR™ will store then automatically synchronize and update itself once you've entered a Wi-Fi zone.

### Real-Time Monitoring

Instantly skim through your Safety Feed and stay up-to-date about your various work sites, employees, and submitted safety documents.

### Instant Access

Have instant access to your company's Workplace Health & Safety manuals, documents and information - reviewed, signed and submitted by employees on any given work site, regardless of location.

### Paperless System

Work in a paperless environment that's reliable, safe, secure and easy to manage - saving you time and money.

### Employee Profiles

You can instantly track every employee with their WORKSAFELY e-COR™ personal profile, which showcases their contact information, education and certification as well as all documentation they've submitted.

### Consistent and Secure

Retrieve, review and submit all Workplace Safety & Health documents, filled out and submitted legibly and consistently with WORKSAFELY e-COR™.

### Automatic & Simultaneous Organization

Access and share your current Workplace Safety & Health documents automatically and simultaneously amongst all employees.

### Effective Time Management

With WORKSAFELY e-COR™, the time you invest in your company's workplace safety & health practices is twofold: you'll be authorizing effective workplace safety & health practices that are instantly integrated into any given project, while efficiently managing your company's time, money, and administrative duties invested in workplace health & safety.

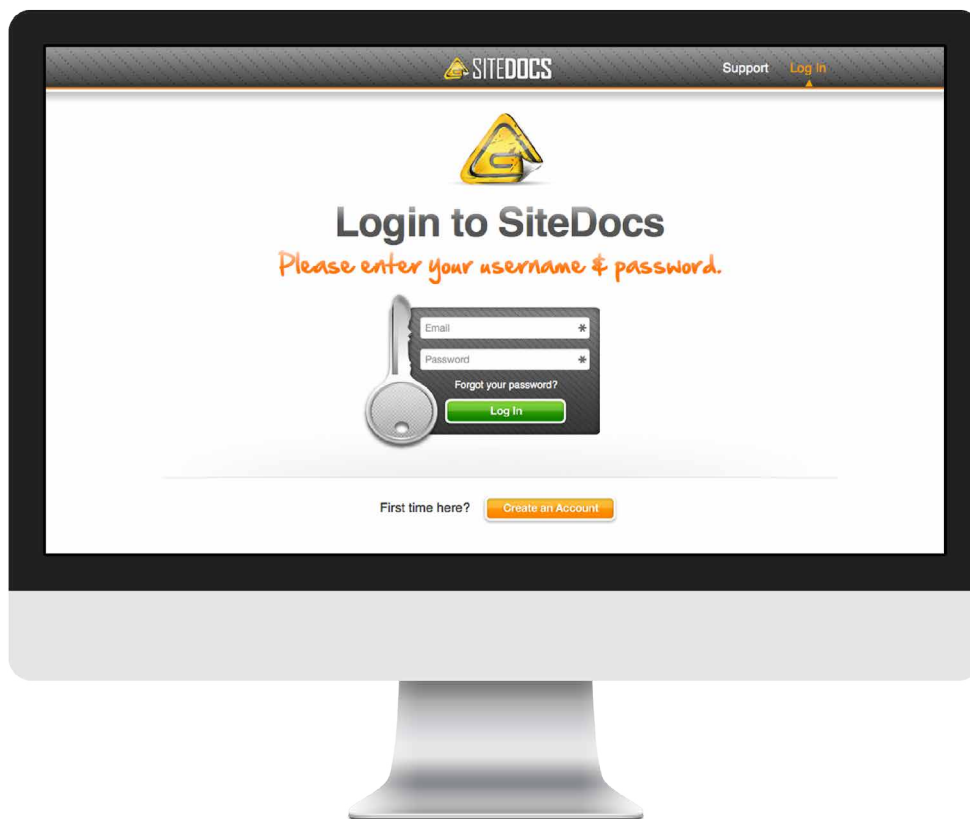

## An investment in workplace safety & health
