

## **WORKING INTER-PROVINCIALY DURING COVID-19**

Individual construction workers or companies may work inter-provincially in several situations: on a one-time basis, for several months, or where the person, crew or company is moving back and forth between provinces.

Under the COVID-19 prevention guideline published by Manitoba Public Health, priority construction workers who travel to Manitoba from other provinces must follow the rules outlined below.

### **BEFORE COMING INTO MANITOBA:**

- Use the WORKSAFELY COVID-19 Health Screening Tool or the Manitoba Public Health Screening Tool **BEFORE** travel.
- Do **NOT** travel if you or any family member are ill, require medical care or are COVID-19 positive or symptomatic (e.g. fever, cough or difficulty breathing).
- Bring all necessary supplies, including prescription drugs and medical supplies.
- If you are driving, get gas before entering Manitoba.

### **WHILE IN MANITOBA:**

- Use the WORKSAFELY COVID-19 Health Screening Tool or the Manitoba Public Health Screening Tool before leaving your place of residence each day.
- Ensure that all workers are educated about company COVID-19 prevention protocols during their work orientation and regularly during jobsite toolbox talks.
- Do not attend the worksite if you have a fever or other symptoms of COVID-19.
- Wear a non-medical mask while at work and in public for 14 days after arrival.
- Other than work, self-isolate in residence for 14 days. Go directly to and from your workplace. Only go in public for work or for essential appointments such as essential medical treatments.
- Wash hands frequently and thoroughly.
- Practice physical distancing of two meters (six feet).
- Self-isolation is re-imposed when you leave and return to the province.

Strictly following the procedures above will minimize the risk of spreading COVID-19 on construction sites, and will be essential to minimizing infection from workers who enter or return from other provinces.

Click [here](#) for a detailed outline of the procedures.

**NOTE: ALL NON-ESSENTIAL WORKERS TRAVELING FROM OTHER COUNTRIES MUST SELF-ISOLATE FOR 14 DAYS UNDER THE FEDERAL QUARANTINE ACT.**
